14° is standard)

Measurements – Make size only

Please indicate in notes section if awning/s will be in a high wind area or roof mounted. Hood securing screws will be installed during manufacturing for these awnings (Please tick to confirm reading this note.)

Cassette maximum projection is 4.0m | The standard number of brackets supplied is for installation to concrete, fixing to other surfaces may require extra brackets to be ordered.

* Vario-Valance option only available on awnings with a projection of up to 3.5m and min 10° pitch required. | Vario-Valance fabric – choose from Soltis range only | When ordering a Vario-Valance, the finished awning width becomes 18mm wider than normal due to additional endcap size (e.g. 5,000mm awning will be 5,018mm overall with VV). Please allow for this.
