ROLLER BLINDS

FEATURES

5-7 year warranty

- Blocks up to 72% of sun's heat
- Chain or motorised operation
- Individual or linked systems
- Single or dual bracket systems
- Spring assist for easy lifting option
- Screen, translucent, blackout fabrics
- 3 aluminium base bar styles in 7 colours and can be powder coated
- Up to 4.4m wide applications
- Fascias and headboxes optional

Helioscreen® Roller Blinds screen the entry of natural light, protecting your furnishings from heat and sun radiation – allowing you to enjoy views and privacy from the inside.

Simple to use, Roller Blinds can be operated either manually using a stainless steel chain or automatically motorised by SOMFY. Blinds can even be linked so they can be operated using one chain, eliminating unwanted hanging chains – enhancing the clean lines of your window.

Roller Blinds come in an exclusive range of sun control fabrics including sunscreen, translucent, and blackout. You can also choose a 'dual' combination of fabrics and simply switch from translucent or screen to blackout, maintaining a comfortable home all year round.

Roller Blinds are available in a wide range of colour ways to suit every interior, and are anti-static for easy cleaning.

Roller Blinds can be customised to fit any window space up to 4.4m wide and come with quality and performance warranties.

HELIOSCREEN'S INDOOR AND OUTDOOR RANGE

Includes: Roller blinds, Roman blinds, Panel glides, Blackouts, External screens, Varioscreeens, Awnings, External louvres and venetians.
